

It's more than
just **the metal.**

It's your product.

From the First Phone Call. Our name is synonymous with fast quotes, detail-critical design and a complete understanding of your project's requirements. We lead the industry with world-class manufacturing capabilities and collaborative customer relationships. Your project becomes our project the minute we pick up your call.

Taking Ownership. Once your project hits our desks, we start looking for ways to decrease your costs and increase the quality. Our engineering and design team uses the most advanced software and technology to analyze your drawing and its fabrication requirements for possible refinements and improvements. And we do it fast.

Sharing Experience. Accurate Metal Fabricating has more than 65 years of metal fabrication experience. Our knowledgeable team seamlessly integrates with you and your job – from initial quote to finishing and packing, ensuring that we produce the pieces you need, how you need them, when you need them.

We have exceeded the demands of a wide range of industries, including:

- Telecommunications
- Retail
- Electronics
- Medical
- Environmental
- Automotive
- Architectural

It's our passion.

Making it So. We offer a wide range of capabilities with standard materials:

- Carbon Steel
- Aluminum
- Galvanized Steel
- Litho-graphed Metal
- Stainless Steel
- Precoated Metals
- Plastics
- Many more

Exclusive Capabilities.

From start to finish, Accurate Metal Fabricating does things differently, and that includes our fabrication capabilities. We provide a variety of services that most fabricators just don't offer:

- Laser Cutting
- Riveting (semi-tubular, pop, blind)
- Fabricating Precoated Materials (available in a wide variety of colors and wood grain finishes that can be screen-printed or four color offset lithographed)
- Press Brake Forming

Getting Things Done.

Whether your job is large or small, Accurate Metal Fabricating has the capacity and expertise to get the work done. Our extensive array of fabrication equipment includes a state-of-the-art laser, turret presses, press brakes and punch presses. Combine this with our welding, riveting and perforating expertise for a metal fabricating solution that meets almost any need.

designing & engineering

notching, punching & cutting

forming

welding & assembly

painting & finishing

screening, labeling & packaging

And it's building **relationships** with our collaborative approach. It's finding **solutions** through our attention to detail. It's utilizing our manufacturing and engineering capabilities that make each piece the best it can be.

Accurate Metal Fabricating is a wholly-owned subsidiary of Accurate Perforating. Our combined range of capabilities provides our customers with an unparalleled, end-to-end metal fabrication solution.
