

## Bystronic BySmart Fiber 3015

Watching our new Bystronic BySmart Fiber 3015 is like wizardry. The flying optic laser transforms your metal from a flat sheet into something spectacular. Whether you're working with sheet metal or plate, the Bystronic 3015 can handle it. Its powerful performance, unmatched precision, and advanced automation make it the ultimate cutting solution for the modern manufacturing environment. *It's Magic.*

### A Laser Legend

- 6,000 watts of raw fiber optic laser power
- State-of-the-art safety features, including a fully enclosed cutting area and advanced laser monitoring systems
- Intelligent control procedures allow for quick and easy changes to cutting parameters
- Advanced automation features and lightning-fast cutting speeds complete jobs in a fraction of the time it takes other laser tables
- High level of accuracy and repeatability, to ensure that every cut and part made will meet your stringent standards

# Metal Magician

**Laser precision. Fast  
turnaround. It really is just  
like magic.**

- ✓ Lengths up to 10'
- ✓ Wide Range of Metal
- ✓ Lights-Out Capability
- ✓ Weight up to 2,800 lbs
- ✓ Sheet Metal up to 0.750"
- ✓ Auto Nozzle For Burr-Free Parts

Maximize your output with Accurate Metal Fab's Bystronic BySmart Fiber 3015. And tell your customers it was *magic*.

## SPECIFICATIONS

Manufacturer and Model	Bystronic BySmart Fiber 3015
Power	6,000 Watts
Table Changeover Time	27 Seconds
Cutting Area	122" x 62"
Number of Cassettes	2
Max Traversing Speed, X/Y Axis	Parallel With Axis: 328ft/min Simultaneous: 460ft/min
Maximum Axis Acceleration	39.36 ft/s <sup>2</sup>
Nominal Sheet Size	120" x 60"
Max Sheet Weight	2,866 lbs
Max Thickness	Steel: 1.000" Stainless Steel/Aluminum: 1.125" Brass: 0.625" Copper: 0.500"
